Dear Cherie,

Thank you very much for "performing magic" at our school with your Top Secret Productions. As you are probably aware, fundraisers are very difficult in the low-income location of our school, but your ideas and program were very profitable for us. It truly was fun and painless. In addition to your performance, your ideas of having food and games really "put us over the top".

The students are still talking about how animals suddenly appeared from nowhere, as well as some of your other magical feats. However, the real magic was the way you gave rather subliminal messages of self-esteem and empowerment to the students while performing your magic. These are issues that they will carry through life.

Again, thank you so much for "finding us". We look forward to working with you again in the future.

Sincerely,

Carol Ford, Fundraising Coordinator
